SUBJECT: CROSS-BORDER FREIGHT PROPOSAL

Dear [Recipient],

Thank you for considering KIY Trucking for your cross-border freight requirements. We move cargo from South Africa into the SADC region and beyond, with a fleet of interlink and tautliner units, experienced long-haul drivers and full customs-clearing support at every port of entry.

Every consignment is tracked in real time and backed by goods-in-transit cover, so you always know where your load is and when it will arrive. Our 24/7 operations desk coordinates loading, border documentation and delivery confirmation on your behalf.

We would welcome the opportunity to discuss your routes and volumes in detail. Please contact our operations office at the number above to arrange a meeting or request a formal quotation.

Yours faithfully,
